

# Heswall Eco Society Party Manifesto

**Let's make Heswall a better and happier place!**

Hello, I represent the **Heswall Eco Society (HES)**. I am here to improve the local area; I am here to support the schools; I am here to make **Heswall a better, happier place**.

Lately, we have noticed that Heswall is not as great as it once was, and we need **your** help to support our community: remember a vote in my direction is a vote for the better.

Now that you know more about me and our society, I will explain my ideas for the upcoming election.

## ***Parks***

We, the HES, strongly think that our local parks are not as appealing as they once were. As a result, teenagers (and young people) are vandalising other people's property. In lots of parks, the equipment is well used and broken. I am sorry to say that there has been some littering in the local parks and I cannot stress the problems enough. I will improve this by providing more equipment (like climbing frames and obstacle courses). I will also put in bins to prevent littering. Every week, we will ensure that the parks are thoroughly cleaned, so there is no broken glass that could be a danger to small children. Furthermore, I will make sure that there are benches so that the adults can sit down while watching their children. Do you want to improve your local parks?

**Then vote for me!**

## ***Musical Education***

Every child, whatever age, deserves a good musical education. That is why I will provide all children (under the age of twelve) with a free musical education. The HES will hold fundraisers and fairs to raise money to pay for this initiative. Lots of people today simply cannot afford to get their child - or children- an amazing musical education. This is a great shame because, I believe, all children regardless of their ability deserve to be given the chance to learn this life changing skill. **A vote my way will change this for the better- if it is important to you, I will make it happen.**

## ***Road Safety***

Not only can I improve your musical skills, I can also keep you and your family safe. One of the biggest problems in Heswall is the road safety. Our local roads are dangerous and more and more accidents are happening every day. To clarify, these accidents are not only in cars, but also on bikes with riders critically injured. I cannot stress enough these problems, which are a great worry to us the HES. We will improve road safety by getting more traffic wardens on the roads- this will help to prevent the parking of cars in prohibited areas. Furthermore, I will encourage road safety to be taught in schools. **Safe children are happy children.**

## ***Local allotments***

Just being safe is not enough for me – I want you to be healthy too. Too many children eat chocolate and sweets for snacks. Also, they are not making healthy choices in school as well as at home. This is an incredibly unhealthy diet for them to be having each day. To solve this problem, we, the HES, will build an allotment near to St. Peter's school. Hopefully, being able to grow their own vegetables (like courgettes, carrots and peas) will encourage them to want to eat healthier products.

**Do you want to be healthier? Then vote for me.**

**A vote for me is a happy vote; a vote for me is a vote for the better; a vote for me will improve our local area and education; a vote for me will make Heswall a better and happier place. A happy you is a happy me.**

**Vote for Heswall Eco Society.**

Thank you for listening.
